

## THE TAX LEVY.

One Dollar on the Hundred  
Agreed upon.

QUITE A SAVING TO THE PEOPLE

The Amounts Apportioned to the  
Various Funds-New Funds  
Created-Calculations of  
the Committee.

The Finance Committee of the Council, consisting of Messrs. Rees, Innes and Rhodes, yesterday afternoon finally agreed upon the tax levy for the ensuing year. While it has been generally understood that the limit would not exceed \$1.10, and might even fall below that figure, the Finance Committee has done even better than was expected, and kept the levy down to an even dollar on the hundred. The Councilmen have given a great deal of time and study to the matter, and are confident that the dollar limit will raise ample revenue for all demands. Every fund has been carefully calculated, and going on the principle that it is better to have the money in the pockets of the people than to tie it up in the treasury vaults, the levy was cut down to the lowest possible notch. Following is the report in full, which will come up before the Council Monday, and will probably be adopted, as every member agreed to it before it was finally acted on by the committee:

**THE REPORT.**  
In the matter of the tax levy for the present fiscal year, we have prepared and have with present ordinance fixing the levy at \$1.10 on each \$100, in accordance with the following statement:

Fund	Amount	Rate	Total
General fund	\$1,000,000	\$1.00	\$1,000,000
Police fund	\$1,000,000	\$1.00	\$1,000,000
Fire fund	\$1,000,000	\$1.00	\$1,000,000
Public works fund	\$1,000,000	\$1.00	\$1,000,000
Sanitation fund	\$1,000,000	\$1.00	\$1,000,000
Education fund	\$1,000,000	\$1.00	\$1,000,000
Public health fund	\$1,000,000	\$1.00	\$1,000,000
Public safety fund	\$1,000,000	\$1.00	\$1,000,000
Public utility fund	\$1,000,000	\$1.00	\$1,000,000
Public improvement fund	\$1,000,000	\$1.00	\$1,000,000
Public building fund	\$1,000,000	\$1.00	\$1,000,000
Public works fund	\$1,000,000	\$1.00	\$1,000,000
Sanitation fund	\$1,000,000	\$1.00	\$1,000,000
Education fund	\$1,000,000	\$1.00	\$1,000,000
Public health fund	\$1,000,000	\$1.00	\$1,000,000
Public safety fund	\$1,000,000	\$1.00	\$1,000,000
Public utility fund	\$1,000,000	\$1.00	\$1,000,000
Public improvement fund	\$1,000,000	\$1.00	\$1,000,000
Public building fund	\$1,000,000	\$1.00	\$1,000,000

The total assessment rolls, after all corrections made by the Board of Equalization, amounts to \$40,933,704. Included in this is the assessment against certain banks, which was placed upon the rolls by order of the Board of Equalization, amounting to \$308,558.

Suits have already been commenced by these banks to enjoin the city from collecting the taxes on said assessments, and in view that a possibility exists that this tax may never be collected, we have deemed it advisable to deduct that amount from the total assessment rolls before calculating the levy.

The net assessment, after deducting amounts to \$45,650,116. In the calculation for the interest and sinking funds, we have taken the precaution to deduct 5 percent from the assessment rolls, amounting to \$2,282,506, to avoid all doubts and improprieties, and the levy for the sinking fund has been calculated upon a basis of \$43,367,610.

You will observe in the foregoing statement that the total levy for the interest and sinking funds amounts to \$1,735, which is in addition, or exclusive of the charter provision fixing the levy not to exceed \$1.

The rate for the funds of the city other than the sinking funds, amounts to \$8.292, being very considerably within the charter limit of \$1.

In the calculation for the sinking funds, the sum of \$21,000 has been placed in the general improvement bond interest and sinking fund for the purpose of paying off a certain proportion of bonds of that denomination.

We have endeavored to place in the several funds about an equal amount with that expended during the year just closed, as we have no reason to apprehend that the expenses of the present year will be in excess of the last.

In the fire department fund, in addition to the amount necessary to run the department successfully, we have set aside \$14,000 intended to be used for the purchase of two chemical engines and four horses, harness and house rent in which to keep them.

In the matter of the allowance of this apportionment to the common school fund, to be used to assist the maintenance of the public schools, we have apportioned the sum of about \$47,000, which, while not so large an amount as asked for by the Board of Education, we deem a sufficient sum, together with that which will be received from the State and county, to carry the schools through nine months' successful operation.

In addition to the \$10,000 which has been allocated to the library, it must be taken into consideration that the city has expended \$10,000 annually expended in the maintenance of the elevator, which is run exclusively for the benefit of the library, and that the city receives from the library for the use of the elevator \$30,000.

To the park fund, we have set aside \$30,000, and it is understood that the contribution of this fund is to be as follows: To the Westlake Park \$11,000; to the East Los Angeles Park \$11,000; to the Santa Anita Park \$8,000; to the Hollywood Park \$10,000.

It being further understood, in the matter of this latter park, that the grantors deed the property to the city without conditions, except that the city should expend not less than \$5000 per year for two consecutive years in improving the property donated for park purposes by Mr. Hollenbeck and Mr. Workman.

The \$5000 placed in the bridge fund is for the maintenance of the bridges, not for the construction of new ones; and the city has created for the purpose of placing in the City Hall a steam heating apparatus.

We believe this tax levy to be sufficient and ample to provide for the wants of the city during the present year, and respectfully recommend that this ordinance be adopted.

**Church Dedication.**  
Simpson Methodist Episcopal Tabernacle will be dedicated on Sunday, September 27, during the sixteenth annual session of the Southern California Conference of the Methodist Episcopal Church by Bishop W. F. Mallory, D. D., the presiding bishop of the conference. Elaborate preparations are being made for the occasion in the way of music, etc. Besides the large choir of about fifty voices, the band of twenty-seven pieces has been secured for the occasion, which will make it one of the most important occasions in the history of this church.

## GUILTY AS CHARGED.

Powellson Convicted of Assaulting His Wife.  
Frank Powellson, the "mac" who so cruelly assaulted his wife, Cora Powellson, in an Alameda street "crib" a week ago, was tried yesterday before Justice Austin. The fellow struck the woman over the head with a heavy club while she was lying on a bed, partially under the influence of liquor, inflicting an ugly wound from which she almost bled to death, an artery being severed. A charge of assault to murder was first entered against Powellson, but this was afterward withdrawn, and a complaint for battery sworn out against him, on which he was tried yesterday.

Officers Bosqui, Rohn and Vines happened to be in the vicinity of the house at the time of the assault, and arrested Powellson as he was trying to make his escape after committing the dastardly deed. The woman would not testify against her husband, saying that she was asleep, and did not know who struck her. After a few words were said to show that the wound was inflicted by the woman falling from the bed while in a drunken stupor, which the judge characterized as "too preposterous for consideration," he was found guilty as charged.

Powellson will be sentenced tomorrow, and as Justice Austin has no patience with offenders of Powellson's class, he will doubtless be given a long term on the city chain gang or in the County Jail.

**THE RAILWAY CONTEST**

CONFERENCE OF CABLE AND ELECTRIC MANAGERS.

The Position of the Pacific Rolling Mills—A Difference as to the Values of the Properties.

The negotiations looking to a compromise between the cable and electric railway companies are still in progress in San Francisco. No agreement has yet been reached, but indications are that the differences will be adjusted. The chronicle of Friday gives the following additional details of the conference, mention of which was made in the telegraphic columns of yesterday:

**THE CONFERENCE.**  
From early morning yesterday until midnight last night, J. F. Crank, the receiver of the Los Angeles Cable Railroad, and M. H. Shering, the receiver of the Pacific Electric Railway, were closeted together trying to arrange some plan of settlement of difficulties between the two companies.

The morning conference was held at the Pacific Bank, and lasted from 11 o'clock until 5 in the afternoon, and was without result. About 8 o'clock last night the four men met in Mr. Sherman's room at his hotel and remained in consultation until after midnight.

It was stated that while no basis of settlement or agreement of any kind had been reached, the outlook was favorable for a compromise, and that the conference would be continued today.

George Whittell, one of the Pacific Rolling Mills directors, was again seen yesterday, and stated that the Pacific Rolling Mills Company need not necessarily be consulted as to what sort of a compromise shall be made, but in all probability it will have a voice in the matter. We have \$200,000 of electric railroad bonds, and of course, would object to any compromise or combination that would in any way affect these securities. We can't negotiate these bonds as it is, and we certainly do not want them made any less valuable than they are now.

That is the whole fact, we find with the contract made with the electric people. The contract is an excellent one and a very profitable one for us, providing we can dispose of the bonds. We are compelled to take in part payment. Our inability to sell these bonds has been our trouble.

"But, Mr. Whittell, if it be true that the Electric Railroad Company does not owe a dollar, that the road, with only two or three cars running, is paying, and that the system comprises twenty-five miles of track already built, why is it that the bonds are not being sold?"

"That I can't answer. The fact that we have not been able to negotiate the bonds we have is all I know about it."

It is rumored that the Pacific Rolling Mills intend to go out of the railway building business.

"Such a rumor is premature. We have made a great deal of money building railroads, and as I said, the contract for the building of the Los Angeles Electric Railway was made out with the expectation that our pay comes partly in bonds. By the way, I do not believe that Manager Benchley ever owned any stock in that road. There was some stock in his name, but Senator Fair has a letter from the electric people saying that Mr. Benchley never owned a share of the stock, and that it was put in his name so that he would be eligible as a director of the road, and would be able to protect our interests."

The explanation is reasonable. Mr. Benchley has not been asked to resign, and the rumor got its start from the expressed intention of giving Mr. Benchley some help in the management of the mills. He is a man 70 years of age and cannot do the amount of work that he is being asked to do; hence it is probable that he will be given an assistant. Just say in regard to the war, that the Pacific Rolling Mills are waiting to see the terms of the treaty of peace before they say anything.

A gentleman who is "on the inside" of the negotiations going on between the two companies made the following statement regarding the matter: "The delay in reaching a settlement is due to the fact that the cable people are putting a higher value on their roads than the other will allow. It is this way: Suppose the cable railway is worth \$1,000,000, but Mr. Crank wants to put it in the combination at a valuation of \$2,000,000, then of course, the bondholders of the electric road would object, because the excessive valuation would lessen the value of the electric securities; vice versa, the cable railway people say the electric road is not worth what Sherman, Marble and McDonald think it is. The truth is that whatever agreement is made, it must be one satisfactory to the majority of the stockholders."

By the way, Manager Benchley has been unjustly blamed about the contract business. The contract was made on December 1, 1919, and was signed by the board of directors and signed by the proper officers of the Rolling Mills Company. In February last, when a new board of directors was elected, and found that the contract was made, they decided to annul it, and had \$300,000 worth of bonds it could not sell or hypothecate for anything like a reasonable price. It is this that is making any more contracts of that kind. Consequently, when the San Francisco and San Mateo road went to the mills to get them to build its line, the contract was strictly for cash.

"Now, I am reliably informed that the relationship existing between Senator Fair and Manager Benchley is just as cordial as it ever was. For a time the stories about Benchley owning stock in the electric road, and that in consideration of this stock he had made a bad contract for the mills, made everyone feel uncomfortable, but the matter was happily explained."

"By the way, I've heard that one stumbling block in the way of a settlement of the railroad war is the fact that the electric company's stock is being sold at a high price, and that the cable people are making any more contracts of that kind. Consequently, when the San Francisco and San Mateo road went to the mills to get them to build its line, the contract was strictly for cash."

## BLACK ARK'S FATE.

Convicted of Murder in the  
First Degree.

TO BE IMPRISONED FOR LIFE

The Defendant Completely Crushed  
by the Verdict—The Proceedings  
Yesterday—Arguments of Counsel.

Somewhat contrary to general expectation the second trial of the Wong Ark murder case was concluded in Department Six yesterday as to the conviction of the defendant of murder in the first degree.

The proceedings, which were watched by a very large crowd, were marked by the admission of the dying declaration of Goot Gue through the medium of one of the witnesses for the defense, and by the introduction of some entirely new testimony in rebuttal, which completely knocked out the testimony of Lem Yow and Ah Tet.

The jury was out nearly five hours, being divided upon the question as to whether the defendant should hang or be imprisoned for life, the latter being finally agreed upon.

When court opened yesterday morning, Wong Ark was recalled and examined merely as to a large pistol found under the pillow of the bunk on which Wong Ark was lying when arrested, and swore that it belonged to him.

Wong Gue was then called and questioned as to what he knew about the murder of Charlie Ah Him on or about June 27 last, and in the presence of Ja Tung, Lem Yow and Charlie Ah Him said that he knew that Wong Ark did not shoot Goot Gue. He replied that he did so state and went on to testify that on the night of the shooting he was in Goot Gue's room from 9:30 to 10:30 o'clock, and that he saw Wong Ark there at any part of that time. When he left he noticed a tall man standing by the door, who made a suspicious motion with his hand.

The witness passed upward the electric light, and when some twenty or thirty steps away he shot and missed the tall man running away. The reason he did not testify before was that he feared he would be charged with the shooting, and was afraid of being arrested.

The little interpreter, Chan Kin Sing, was recalled at this juncture by the defense and examined as to what he knew about the murder of Charlie Ah Him on or about June 27 last, and in the presence of Ja Tung, Lem Yow and Charlie Ah Him said that he knew that Wong Ark did not shoot Goot Gue. The little interpreter, Chan Kin Sing, was recalled at this juncture by the defense and examined as to what he knew about the murder of Charlie Ah Him on or about June 27 last, and in the presence of Ja Tung, Lem Yow and Charlie Ah Him said that he knew that Wong Ark did not shoot Goot Gue. He replied that he did so state and went on to testify that on the night of the shooting he was in Goot Gue's room from 9:30 to 10:30 o'clock, and that he saw Wong Ark there at any part of that time. When he left he noticed a tall man standing by the door, who made a suspicious motion with his hand.

The witness passed upward the electric light, and when some twenty or thirty steps away he shot and missed the tall man running away. The reason he did not testify before was that he feared he would be charged with the shooting, and was afraid of being arrested.

By Telegraph to The Times.

BERLIN, Aug. 29.—[Copyright, 1891, by the New York Associated Press.] Orders have been issued by the government calling upon agricultural district officials to report as to the condition and probable yield of wheat and rye. Judging from the altered tone of members of the official circle, a suspension of import duties of grain is becoming a recognized necessity. The Ministers will not wait till November to submit the question in the Reichstag, but, immediately upon the conclusion of the gathering and digesting of statistics, will declare the duties suspended.

The North German Gazette published an article on the subject, in which it avowed that the main reason of the government in hitherto refusing to lessen or suspend the duties was fear that the Reichstag would, once they were abolished or reduced, never allow them to be restored. This statement raised storms of protest in which the agrarian journals joined. The notion that the suspension of duties meant permanent abolition is denounced as absurd in view of the fact that the Reichstag, which has yet three years to live, has clear protectionist theories and is ready to reimpose the duties when the government desires. In the mean time, what measures are possible will be taken to lighten the hardships resulting from the dearth of rye. The Reichs Bank has been authorized to make advances up to two-thirds of the value of grain placed in the depots. Importers have been ordered to supply the depots. Until yesterday when the Russian prohibition came into force, the frontiers did a great carrying trade. The mixing of rye with wheat has already been largely resorted to and nothing but a mixture is now used for making bread for the army.

THE KAISER'S TEMPERANCE SCHEME. Freisinnige Zeitung has decided to oppose the main clause of the government's bill for the repression of drunkenness. The ultimate fate of the measure may be predicted as it is modeled after a bill of similar import which was introduced in the Reichstag in 1881, and dropped in committee. The leading ministerialists are the only support of the present bill, and their support is due simply to the fact that the Emperor, who is the father of the bill, is in earnest in his efforts to suppress the growing evil of intemperance.

WORLD'S FAIR ARTISTS. Hardy, Peck and Butler, three members of the foreign commission of the Chicago Columbian Exposition who have been visiting Russia, describe their reception by M. DeGrua, Russian Finance Minister, as of a most cordial nature. Vostrogorsky, Minister of Finance, promised that he would at an early date appoint an imperial commission to attend to all matters pertaining to the proper representation of Russian art, industry and manufactures. In eleven days' tour Messrs. Grosvenor and Lindsay in Switzerland covered every industrial center. Everywhere they were told that they could rely upon an ample representation of Swiss products.

AT HIS OLD TRICKS. Percy Tighman, who at one time was United States Consul in this city, but who subsequently became notorious for his swindling operations, has been at his old tricks again having swindled Banker Laundry at the Hague out of \$200.

Against the County High School. SANTA ANA, Aug. 29.—[Special.] In the election for county high school in this county today, the county high school was defeated by 250 majority, with but three precincts of only about fifty votes altogether to hear from. They will probably go for the school.

A Drop in Wheat. CHICAGO, Aug. 29.—Wheat went below the dollar mark today. Cables were lower, and the fact that the frost news did not pan out as bad as was expected resulted in a lower opening. Decrease started at \$1.10 cents below yesterday's closing and by 12:15 had dropped to 99¢.

Millard Fillmore's Sister Dead. SAN FRANCISCO, Aug. 29.—Mrs. Julia Fillmore Harris, last survivor of a family of eight brothers and sisters, one of whom was Millard Fillmore, thirteenth President of the United States, died tonight at the residence of her son, Charles Harris, in this city.

The First Through Freight Train. NEWMAN, Aug. 29.—The first through freight train on the Sunset route passed through Newman this morning on the West Side road, the extension from Los Baños to Armona having just been completed.

The Pensacola Sails. VALLEJO, Aug. 29.—The United States cruiser Pensacola left Mare Island navy yard today. Her destination is supposed to be Honolulu.

Southern Pacific's Acquisition. DALLAS (Tex.), Aug. 29.—The Texas Trunk Railroad was turned over to the Southern Pacific Company this afternoon. Maj. Charles Dillingham represented the Southern Pacific.

Storm in the West Indies. HALIFAX, Aug. 29.—A special cablegram from Bermuda says that a terrific storm raged yesterday, leveling stone walls, uprooting trees and destroying telegraph wires. It was the greatest storm since 1880.

A Legislator's Suicide. WOONSOCKET (R. I.), Aug. 29.—O. L. Converse, a member of the Legislature, hung himself. Financial embarrassment was the cause.

Proctor at His Desk. WASHINGTON, Aug. 29.—Secretary Proctor returned to Washington this afternoon.

## TELEGRAPHIC BRIEFS.

United States Attorney Garter has filed a complaint against John J. Reid et al., to compel a patent given to defendant in 1885, canceling the Cortes Madera ranch of several thousand acres in Marin county. The complaint alleges fraud.

Near Brush Creek on the St. Louis and San Francisco road yesterday two freight trains going at full speed collided killing four men and demolishing both trains. The killed are George Ludwig, engineer; C. C. Bridwell, engineer; Henry M. Johnson, fireman; Abram Noble, fireman; two brakemen were injured.

An Air-ronaut Killed. DETROIT (Mich.), Aug. 29.—Prof. Hogan, the balloonist at the exposition grounds, fell from a balloon and was instantly killed this afternoon. He had ascended nearly a mile and was preparing to cut loose the parachute and descend when he lost his hold and fell to the ground. The body was mangled beyond recognition, every bone being broken. Thirty thousand people witnessed the catastrophe. Hogan was a brother of Hogan who made the ascension in Campbell's air ship in New York some years ago and was lost.

Precautionary Arrangements. LOUISVILLE (Ky.), Aug. 29.—The Brenner-Moore Paper Company, and Moore, Brenner & Co., grocers, have made assignments. The liabilities are about \$250,000; assets, \$700,000. The trouble was that the assets were not readily available, and the assignments were made as a matter of precaution.

CURRENT HUMOR. Jargon says he has found more grass widows in clover than in weeds.—(Elmira Gazette).

There is one lucky thing about spoiled children—they never have them in our own families.—(Elmira Gazette).

Strange Digging a Grave, eh? Do people die often in this village? Sexton, No, boss, they nebbber dies but once.—(Munsey's Weekly).

On the gravestone of a western woman, who died recently, has appeared her picture. If it is like the general run of epitaphs it must flatter her.—(Boston News).

A bald-headed lawyer stands a poor chance to win in politics this year. He will not be able to appear at an Alliance convention with sayesed in his hair.—(New Orleans Picayune).

"It is all your fault that I am here," said the convict. "You are the man who told me I ought to forge ahead." "I did not tell you to forge a hand, though," replied the visitor.—(Indianapolis Journal).

One of the funniest things of American life is a New York millionaire trying to travel incognito, because he really believes that the country is ready to march forth and embrace him.—(Baltimore American).

Boothby Ham. Why didn't you bring out the ham at the close of your first production of his play? Mansfield Rafter. I tried to do so, but his head was so swelled that I couldn't get him between the wings.—(New York Herald).

## A Good Chance For Somebody

Eastern Washington

Has just enough winter to give the desired change of season without tiring or discomforting its people. It is a land of fertile fields, sparkling waters and robust health; and its vast resources are being developed with marvelous rapidity.

Sixteen miles west of Spokane Falls, now a city of 25,000 souls, and at the junction of the Central Washington with the main line of the Northern Pacific Railroad, is a beautiful country, with its many churches, electric light and splendid water works. This is the seat of the Washington State Normal School, as also of an excellent graded public school.

One mile from Cheney there is a half-section farm, one of the best in the county, enclosed and subdivided by 5½ miles of good fence. It combines rich cultivated lands, with meadow, timber and pasture lands, and is watered by good springs. The owner of the farm occupies the best home in Cheney; his residence, well built and nearly new; good barn, with sundry outbuildings, occupying eight lots well set to fruit, for which, with the farm, he has refused \$15,000; but will sell now cheap, for cash, or exchange on equitable terms, on, or both of these properties for property in Los Angeles or vicinity, that he may live near his relatives now there.

Persons desiring this property by purchase or exchange may address the owner, N. W. GARRETTSON, at Cheney, Wash., or call on W. T. CARTER, Reg. No. 512 W. Sixth St., Los Angeles, where there will find more and diagrams in full description of these properties.

## CHINO!

Has the largest Beet Sugar Factory and Refinery in the world and the United States Experiment Station is located here.

This celebrated ranch is the property of Mr. Richard Gird and contains about 50,000 acres; 16,000 acres of it has been put in the market in tracts to suit, bounded by Pomona, Ontario and Riverside; places noted for fruit culture, beauty, etc. 10,000 acres of artesian water lands, which will produce alfalfa, corn, beets, etc., without irrigation. The best artesian water is provided for deciduous fruit and choice orange lands. Excellent well water is abundant at from 8 to 25 feet deep. The land is porous, smooth, unbroken and ready for the plow.

The crops need no housing, sacking or boxing, or holding for market. With right tillage, the yield is large and profits sure. Wherever in Europe or the United States this industry has been established, land has quadrupled in value, and the people greatly prospered.

Seed furnished at cost on trust till sale of beets; use of seed drills free; special implements at cost; experienced sugar beet farmer on the ground to freely give correct instruction.

Buy land where you won't have to wait FIVE LONG YEARS for your trees to commence giving you a support, but go to Chino where you can get the best lands in the world for all kinds of fruits. Raise beets between the rows and get your cash for them in five months, and you can earn from \$40 to \$160 per acre, and the price of beets is established beforehand and not subject to any market fluctuations. This is the chance of your life, now, while prices are low.

3000 acres of beets are now about ready, and a contract with the Messrs. Oxnard Beet Sugar Company to consume 21,500 acres of beets in 5 years, and will double the capacity if you raise the beets. Where on earth are you offered such inducements and such returns in the same length of time? Prices, \$50 to \$250 per acre; easy terms.

THE TOWN OF CHINO

Is a rapidly growing business point situated near the center of the great Chino ranch; has daily mail, the great Sugar Factory, and W. F. Co.'s express, two railways connecting it with the Southern Pacific main line, telegraphs, telephone, best of water under fire pressure, etc., and is surrounded for miles by the richest land in the world. circumstances, Avalon in the near future is bound to become one of the favorite resorts among the many pleasant ones on this Coast.

The church here has had substantial aid rendered by a number of kind friends, ladies and gentlemen, who have given their services in concerts, lectures and entertainments of various kinds. Prof. Kent of Pasadena, with the assistance of a number of talented friends, gave a very pleasant concert at the Hotel Metropole. The Outburst family of Long Beach also gave a musical entertainment which was thoroughly appreciated; and several gentlemen from Los Angeles and other places gave very interesting lectures which were all well attended and enjoyed. Last in order, but not least, Maj. Hunt of Elsinore, who, through the late civil war fought under the flag of the Ninety-eighth Ohio Regiment, gave a series of stereoscopic entertainments in the church, the first evening devoted to scenes of the late civil war, which were, in a pleasant conversational manner, described by the Major, and many interesting incidents pointed out, notably among which a portrait of Gen. R. A. Alger, the hero of Boonville, Mo., and a picture and description of his brilliant charge with nine men through a brigade of Confederate cavalry, which resulted in a patriotic and a very brave deed. The last evening was devoted to the drunkard's career and the drama of Uncle Tom's Cabin.

THAT EAST SIDE SPOOK.

A Bridge Watchman Robbed of His Bed and Blankets.

It will be remembered by the readers of THE TIMES that the body of a man was found on the East Side a couple of months ago, in the willows above the Buena Vista street bridge.

The body was identified as the Coroner's latest as that of a well-known citizen from Indiana, and his relatives were communicated with but the remains were not sent for.

He was found on his face and the condition of the ground for some feet around showed that he died a most terrible death. His face and hands were frightfully lacerated from his struggles on the hard ground, and from all appearances he must have suffered great agony during his last struggle.

A few days after several stories were told by persons who happened to pass along the road which runs only a few feet from where the body was found, about ghosts, spooks, etc.

One farmer, who left his wagon on hearing of the story, called at the East Side police station and told them that he had been led by some unknown power to follow the cries for help to the river, and to save his life he could not keep out of the water, and when he got in up to his waist some unseen power grabbed him and he knew nothing until he found himself on the banks in a prostrate condition.

He made his way to his wagon and found the thing seated on his wagon. He had another terrible struggle, and at daylight he found himself in the dust by the side of his wagon, where he had fallen in a dead faint.

Since then the thing has been seen several times, but it never appears any more until Friday night, when it appeared to the watchman at the Arroyo Seco bridge, which is only a few hundred yards from the spot where the body was found.

The watchman called at the East Side police station and told a most singular story. He had been watching the bridge for some time as it is the custom of contractors to watch bridges in course of construction and see that no one interferes with the bridge or carpenter's tools. He has been in the habit of sleeping part of the night as there are certain hours that no one is liable to go around in, and for that reason he secured a cot and some blankets which he placed in a secure spot where he would have a good view of the bridge.

Night before last the spook of the willows appeared on the new bridge several times, but as this is a common thing and he has never made an effort to disturb anything the watchman, who is not afraid of spooks, thought nothing of it until he got up to take his midnight nap. He made his way to where his cot ought to be, but much to his surprise it was gone. Everything, including blankets, lunch and cold tea had disappeared, and the spook was the only thing that had been around the bridge that night, the watchman became convinced that his spookship walked with them.

That the bedding was made way with there is not the slightest doubt, but it is a question in the minds of the East Side police as to who got away with them, for they can't understand what use a spirit would have for a bed, cold lunch and a change of that kind. The case is being investigated.

The five large cases of pictures by Photographer George Stecker of this city, which carried off high honors at the annual convention of the Photographers' Association of America, held at Buffalo, N. Y., July 14 to 18, and were awarded the bronze medal and a diploma, have got back to Los Angeles and are now on exhibition at Mr. Stecker's studio, No. 230 South Spring street. As specimens of the highest achievements in modern photography, they are worth seeing.

That sterling institution, the Los Angeles Business College, will reopen its night school next Tuesday evening, the 1st prox., and resume the good work of giving instruction in penmanship, bookkeeping, arithmetic, shorthand, typewriting, telegraphy and all the English branches to young people whose time during the day is occupied with other pursuits, but who still have the ambition and industry to fit themselves for higher positions and better pay.

Reference has been made to the fact that the track of the Southern Pacific road east of Yuma would be changed somewhat and located on higher ground. This work is now being done, and thirty miles of the road running along the Gila River will soon be located on higher ground. This work is being done, and thirty miles of the road running along the Gila River will soon be located on higher ground.

It should be borne in mind by all interested, or intending to be interested in the construction of a new railroad in Arizona that the law exempting from taxation requires that they shall file with the Secretary of the Territory on or before September 16, a statement of the proposed route, the location of the line, the proposed length thereof, and actual construction must begin within six months from filing such notice of intention.

The new station building and grounds of the Los Angeles Terminal road on the river bank at First street contrast strongly with similar property of the Santa Fe route directly across the stream. The new building is painted a drab of wine color to match the new coaches, and is not only pretty on its exterior, but is well arranged and furnished within. The general offices will be established in the new quarters tomorrow, though painters and carpet-layers will be in possession for some short time yet.

The builders of the San Joaquin Valley Railroad are making good progress in the construction of its line up into the mountains northeast of Fresno. It is the intention to have the first twenty-six miles of track ready for operation before the autumn rains begin.

This part of the line will extend to the waters of the San Joaquin River, over which stream the company will build a fine bridge. The surveyors are now at work in the foothills and are making good headway. The length of the line will be nearly eighty miles. The track-layers have been putting down rails for a fortnight at the rate of a mile a day.

Knocked Down and Robbed.

At 11:30 last night W. M. Reins, of Downey, was found in an unconscious state in Arguello's stable, on Alameda and Commercial streets, by Officer Vignes. Reins was taken to the police station and Dr. Bryant was called in. The man stated that he was knocked down at 6 o'clock in the evening by some one, who robbed him of his horse and watch and several dollars in change. He could not tell who robbed him, as the person or persons stepped up behind him and struck him on the head, and he knew nothing more until the officer found him. He had several ugly bruises on the head, but was not hurt otherwise.

FOR THE BENEFIT of those that desire to have work turned out early, Mrs. D. D. Dod of the Parisian Cloak and Suit Co. desires to announce that her department will be open for appointments tomorrow, Monday, Aug. 31.

## THE RAILROADS.

### Railroad Employees Given a Little Reminder.

#### FRESNO'S MOUNTAIN RAILROAD

The Terminal and its New Building—The Santa Fe at Santa Monica—General and Local.

Once more the Southern Pacific management sends out a circular to all employees instructing them that one of the principal duties expected from them all is to be uniformly courteous and polite in dealing with the public. They are reminded that the railroad and the public stand in the same relation as the business man and the people, and they will be expected to always conduct themselves with that idea in view.

The public should be shown that the railroad is for their service and that the company strives to employ only those men who can practice the civilities expected in other lines of business. Similar circulars have been issued before, and this one is not so much to remind old employees of what is expected of them, but to impress new ones with a truth which might be new to them. The old employees of the company, in Los Angeles, needed no such reminder.

Passenger and freight agents in Los Angeles report business very dull.

The Southern Pacific pay car, after a brief stay in Los Angeles, proceeded eastward yesterday.

Travel to Yosemite, which was quite light for a week or so, is reported to have become brisk again.

The track of the Terminal road crossed the Santa Ana branch of the Southern Pacific yesterday at the Nadeau winery.

W. A. Bissell of the Atlantic and Pacific says that travel into the Grand Cañon of the Colorado will no doubt assume large proportions next year, as two new trails have been opened from Williams, which are much shorter than the old trail from Flagstaff.

The fact that the promoters of the scheme for connecting Santa Monica with the Santa Fe line offer to guarantee the completion of their work within four months from the time certain franchises are granted them, looks like business. The Santa Fe will soon add Santa Monica to its list of terminal points.

I had been sick five months, paid out large sums of money for doctors and medicine but derived no benefit. Dr. Wong Him was recommended to me by a friend. I did not think I could get well, as my lungs and kidneys were very bad and getting worse all the time. Dr. Wong Him took me in this condition; he has in two months' time entirely cured me, and now I feel it my duty to testify in his behalf to the friends and the public as an efficient and skillful physician.

## In the Footlights' Glare and Shadows.

BY EMMA V. SHERIDAN, ACTRESS.

### CHAPTER IV.

#### A Chapter.

Kildare stood stumped and blinking; then a panic at being so dreadfully misunderstood seized him.

"My dear girl, you don't know what we are talking about," he protested. "Oh, yes—yes—I am right," said Daisy gently, "and you must not hurry me. That would be unfair to me."

Kildare felt he must set himself right, but he found it impossible to be too candid. Besides, he was too much of an artist to disturb the harmony of the scene.

"Little one, artists are different from other people," he explained. "Certain things—"

"I know," she interrupted. "You would say that one must be the more careful about forming ties. That is why I will not bind myself by any promise—not till I am sure. Nor shall you bind yourself, either."

Kildare felt himself getting desperately involved, but the girl went on: "I don't even know yet that I can love you," she faltered prettily over the word, "and maybe you are mistaken, too. Maybe I am not the woman you take me for at all."

Kildare wiped the perspiration from his forehead, and to himself confessed himself beaten—at least in that direction, but he had much confidence in contact.

"My darling," he said, and strove to take her in his arms again. She was shy and swift as a wild bird. Then, her tender heart fearing she had hurt him, she reached out her hand and said wistfully:

"Meanwhile, be friends, please be friends."

He clasped the hand in an absent-minded, half-dazed way. A bright voice broke in:

"It is I—Freda. Daisy, run up to the train. I will come in a moment."

Freda's air of confident authority induced obedience, and Daisy was glad to escape.

Kildare stood stroking his chin and smiling. When Daisy was well out of hearing, he said pleasantly: "Listening."

"I did not need to. I know what you were saying."

"You ought to be Kildare admitted. Yes, as you say, I ought to. Aren't you ashamed?" And a girl who might believe you!

"She said. She says she can't be my wife now. But I am pretty unprepared for the future. Can't you help me out?"

"What a laudable lot you men are!" "We are hardly as interesting as you women—yourself in particular."

"Have you no decency?" "I bathe regularly, my child."

"Or heart?" "I believe I possess yours, dear."

Freda glared a minute, her color wavering; then she laughed lightly. "Only that I am not of Daisy's age should not have lost my temper. You aren't worth it. Now, listen. Daisy is a lovely girl."

"Didn't you observe my appreciation of the fact?" "And she is so simple-minded and good, that with all your devilish cleverness I don't believe you could make her love you."

"I could try."

"Give it up."

"I can't. Fascination."

"Why?" "Hang it all, she will expect me to go on. I believe, yes, I believe we are engaged."

Freda ground her teeth. "For heaven's sake, don't be so irritating. Nobody knows you and Daisy were together. They all think I was with her."

"By the way, why did you come back?" "I walked up past the train. When I came back to the car, Charlie said you had gone down to the falls, and asked me about Daisy. She is just behind me," said I, and sent him into the car. Then I tore back here."

"He—statue!" "Daisy will never say anything, and don't you dare to. You let Daisy alone!"

"Do you consider yourself eligible for a chaplain's position?" "Ugh! What a contemptible thing a six-foot man can be!"

"Whither away, fair Ophelia—to a nunnery?" "I am going to overtake Daisy."

"We will go together."

"Are you coming?" "I see so little of my pretty pepper box. She must not begrudge me these few moments."

"I wonder I wouldn't touch your arm. I thought how it feels to feel as you must."

"Fascination," murmured Kildare, "I should like to kiss you."

"Poor Daisy was uncomfortable in cumulative fashion as the next few weeks passed, and she was reading the manuscript of a new play and in the interest of study the little episode with Marguerite passed from his mind. She found herself included in the abstracted manner he showed everyone. Sometimes she was tortured by a fear that he awaited some word from her, again a humiliating doubt of his sincerity arose. No woman is above feeling chagrined to fancy herself made love to capriciously. Her words were accepted, the advancement in good faith. To do her justice, her sense of obligation to Kildare weighed chiefly. As weeks passed she realized how little her heart felt for him. She began to upbraid herself. Her words to him, there by the falls, now seemed culpably due to the mere impulse of the moment. Yet she had promised to try and love him. Her cheeks burned. The more time taught her that to love Kildare was an impossible duty, the more urgent she felt the need to speak to him at once. Yet how could she?

Somewhere she felt her obligation a thousand fold when a letter from Henry Breton advised her of his intended visit during the company's stay at Washington. Besides, there were other reasons. The sight of Miss Elaine caused her a guilty sense of discomfort.

"Miss Elaine grew more wrath-like each day. A and hunger showed from her eyes. She was in no doubt of that, and Daisy felt as if she had helped to make her so. Miss Elaine loved Kildare, there was no doubt of that, and Daisy felt herself a lawbreaker. Ah, if she could see her married to Kildare! She could not content herself with Freda's philosophy:

"Never meddle with what is none of your business—never worry about what you can't help." She felt a desire to meddle and she did worry. Her heart warmed toward him. Falling into this state of mind and sympathy, she felt bolder in her wickedness of

it all. At last she went to Freda with some of her perplexity.

"At mention of Bird's sorrow Freda's color rose. 'How do you presume to judge?' she said shortly."

"But, Freda, she has thrown herself at the feet of a man who does not love her. Freda, don't get angry with me. I don't want your help. I don't know what to do, or what I ought to do. Mr. Kildare is coming."

"Freda's eyes flashed upon her, and she said: 'What do you mean?'

"Look here, Daisy, in this stage of illusions must go sooner or later. Forgive me for dissipating perhaps one or two of yours. I fancy Kildare has been giving you the usual dose."

"The usual dose, Freda?" "Yes, for instance, you have heard us speak of the girl whose place you took—Josephine Davis."

"Yes."

"Dear old Joe! Wish you had known her? She was a very nice girl, a liberal education to you. Daisy. She was a girl, honest and manly as a girl as ever lived. She had been in the company since Miss Elaine's place. I would make you a life of hell, and she puffed some smoke in his face. Ah! and Freda sighed ostentatiously. 'Joe was a very level-headed girl, if it did cost her an engagement to the lips, and her eyes were strained. Perhaps Freda noticed it, for she went on more gently: 'I have been through the same thing. My dear. Maybe it hurt me a little; it only amused me. I did my best, however, to meet it in a matter-of-fact, business way. I explained to Mr. Kildare that I understood he was suggesting for me the honor of a matrimonial engagement, and that—'

Daisy burst in, crying: "In the same moment Freda's arms were around her."

"There, dear, I know it is all hard for you to bear. I have tried to save you some of the bitterness of experience. I thought I ought to tell you, and don't bother any more about it. For heaven's sake, you don't care about him, do you?"

"No," sobbed Daisy; "that was partly what was making me miserable. I thought I ought to tell you, and don't bother any more about it. For heaven's sake, you don't care about him, do you?"

"No," sobbed Daisy; "that was partly what was making me miserable. I thought I ought to tell you, and don't bother any more about it. For heaven's sake, you don't care about him, do you?"

last act was still in soft fecundities about her throat, and her velvet cap had a specially jaunty tip. Daisy realized that her friend looked more than usually like an actress."

"Is this Mr. Breton?" Freda extended her hand, adding: "I didn't know whom Daisy meant. I met so many people, but I remember you quite well. This with an arch turn of her head and a little smile up through her lashes—this 'Daisy have supper upstairs, Daisy. This big room, lighted at one end, always gives me the horrors. "He is a gentleman."

With the beginning of September the birds of fashion begin to flutter back to the home nest and after a period of smoothing their plumage will again be seen in social circles and the season of 1891-92 will be fairly launched. Of course a reasonable amount of time must be granted the charming maidens to remove the traces of their summer outing and freckles and sunburn will not disappear in a day or a week, no matter if the most sturdy treatment be resorted to. A red nose, a skinned forehead and a face covered with big brown freckles does not add to one's beauty for all the poets may sing of "sun kisses" and such sentimental nonsense.

Yesterday a family just returned from the seashore boarded a cable car. "Come, Marguerite, be quick," cried the mother to a little gingham-aproned miss. Now Marguerite is a charming name and perhaps it was applicable to that child in her normal condition. It is a name which naturally suggests a spiritual beauty, but when applied to that freckle-faced, snub-nosed, not overly clean child, it was—well, it was more than ridiculous; it was simply sacrilegious and not a passenger on that car but smiled in a horrified sort of way at the incongruity of the thing.

#### ANGELES UP NORTH.

A gentleman, prominent in Los Angeles social circles, who is visiting the northern watering-places, writes THE TIMES about the festivities of the Country Club at Del Monte as follows: "The Four Hundred of San Francisco turned out en masse to participate in the affair which was gotten up on a grand scale, and nothing occurred to mar the pleasure of the day except a grass fire, in which J. Downey Harvey made a record for himself as a fireman and saved the bewitching beauties from the flames. Pigeon shooting, with an open air lunch spread under the tall redwoods, the Golden Gate band discoursing inspiring music, occupied the day, and in the evening a grand pyrotechnic display took place upon the beautiful lake between the ocean and the hotel. The trees adjacent to the hotel were hung with many colored incandescent lights, which formed a beautiful setting for the guests, who in charming evening toilets pronounced the affair a triumph of foliage, making a delightful impression I shall not soon forget. At 9:30 the orchestra, stationed in the magnificently decorated ballroom, began playing and the strains of music, mingling with the thrills of the younger members of San Francisco swelled to participate in the mazy dance. At midnight the throng prepared to the banquet hall where a feast fit for the gods was spread. The menu was elaborate and the extreme and champagne flowed freely. Among the Los Angeles guests present were Mrs. Childs, the Misses Childs, LeGrand Betts, Mrs. Kirkover, Harry Kirkover, Judge and Mrs. Wilson and Miss Wilson.

Sonator and Mrs. Leland Stanford were among the most noted guests, and Miss Joliff was the recognized belle of the evening. Miss Nellie Hillyer is the favorite bud of the season, and will in the near future be a recognized society leader. Among the prominent Angelenos now in San Francisco are: Hon. and Mrs. S. M. White, Mr. and Mrs. Fairchild and daughter, Miss Alice Davis, R. J. Hambrook, Mrs. J. W. Robinson, Forrest Hanco, Judge Alexander Campbell, Park McChesner and Herbert Winston of Pasadena, Capt. Spencer of San Gabriel, Miss Jeannette Havemann, Miss Kate, Mrs. E. E. Bean, M. L. Wicks, A. H. Busch, Mr. Longstreet, C. L. Fisher, J. Fred Blake and others.

#### AMELIE'S DOWNFALL.

Mrs. Amelia Rives-Chandler has apparently sounded her own death-knell as a story-writer in her new novel, "According to St. John's," the opening chapters of which appeared in the August number of the Cosmopolitan. A critic in Current Literature devotes a page to this production in which he scores her unmercifully. "After the career of this young writing woman," he says, "the drop from the quality, style and dignity of her early work to the present performance, is almost beyond understanding."

Mrs. Rives-Chandler is not—like some of her fellow-sufferers with the literary men—yet her hand is on a vulgar tale characters is not ladylike literature. The Sun Flowers, a Long Beach organization, gave an entertainment at the Tabernacle there last Friday night. The club numbers among its members some of the most talented young ladies in Long Beach. Several hundred people attended and by their presence and encouragement to the young ladies in their effort to raise funds for the employment of a competent teacher of elocution, that they may receive instruction in the art of public speaking, the majority of them took part in the contest for the Demorest medal of the W. C. T. U. at Long Beach, and the competition was so sharp as to make it difficult for the judges to decide who was the winner. It was finally awarded to Miss Maud Pratt.

#### LONG BEACH ENTERTAINMENT.

The audience were entertained with a fine programme, Rev. Hiesley making a neat and humorous introductory speech. Little Winifred Hiesley, in her recitation of "The Milkmaid's Best Cow," not only proved herself a Sunflower, but a "daisy" as well. The two little tots, Nellie and Lola Eads, in their duet, surprised the audience by their self-possession and proficiency. The recitation by Miss Hazel Webster was given with a dash and spirit quite refreshing. Master Guernsey Brown's song was vigorously applauded, but he declined the encore. Miss Cora Holdridge's recitation of "Baking Day" was given in an easy, graceful manner, and took well with the audience.

"Socrates' trials and tribulations" was charmingly depicted by Maud Pratt, who looked very pretty in her highly ornamental and gorgeous sunflower costume. The choruses rendered by the "sunflowers" were exceptionally well done and the costumes of the young ladies were very taking and reflect great credit on their designers. Altogether, the entertainment, socially and financially, exceeded expectations.

#### BIRTHDAY PARTY.

Last Wednesday evening the house of Mr. and Mrs. R. C. Martin, on College street, was the scene of a bright and enjoyable gathering in honor of the twenty-first birthday of their son Frederick.

The evening was spent in music, games and dancing. Misses Austin, Hubbard and Sills performed very gracefully upon the piano, and H. S. Williams favored those assembled with a vocal solo, which was heartily enjoyed. Miss Austin and Messrs. Pemberton, Wilson, Lake, Sigler and N. R. Martin rendered several orchestral selections very acceptably, after which refreshments were served.

His birthday was a birthday cake with twenty-one layers. The cake contained a dime, and as each guest received a piece they were in a fever of anxiety to find the coin, as it indicated that the finder would be the first to marry. According to this omen an East Side young lady may soon expect to be a bride.

Those present were: Mrs. R. C. Martin, Mrs. G. Evans and Misses Eames of Oakland, Daisy Austin, Marion Thibout, Gertrude McCrea, Kittie McCrea, Sills, Whitney, Earl, Boal, Cook and Hayman; Messrs. H. S. Williams, Charles Pemberton, C. Dodsworth, Thomas McCray, Ross, Sigler, Lake, J. D. Burke, Wilson, Searns, Shepherd, Hayman, Berman, Howard Martin, Leo Gibson, N. R. Martin and Fred C. Gibson.

#### SOCIETY IS SEEN.

Mrs. M. E. W. Sherwood has an article in Lippincott's Magazine on society as seen in New York, Philadelphia, Washington and Chicago. She says the New York article is free from scandal, the Fall Mail Gazette can chronicle twelve cases a minute to one a week in New York of public fashionable vice and disgrace. Society is not so rapid as it is rapid, its worst side being its tediousness. Tediumism runs riot and the tribute to money bags is simply disgusting. In short, society in New York is more full of glare and glitter than of elegance and refinement, but the first shower will take the gloss off and then it will look better, more like an old aristocrat.

Philadelphia has avoided the snares into which New York has fallen. There is still the conservative spirit, the traditional quiet elegance, the charm as if of a beautiful Queen across the Philadelphia hospitality. Society in Philadelphia is very elegant; the talk at a dinner is of the finest quality. Wealth is not the standard and there is no offensive ostentation or loss of show, it might almost be said to be the fashion to be poor, or at least in moderate circumstances, in Philadelphia.

Chicago society is as fresh as a rose, and has four elements of success: great wealth, a wonderfully large beautiful house, a very stimulating climate and a set of educated, refined women, each of whom is an individual. No one Chicago woman is in the least like any other Chicago woman. There is little envy, little gossip and no detraction in Chicago society. They have endless clubs for all sorts of things, and they dress well. Never was there a town which has less of the invidious and the strains of the money of Chicago. They have their four hundred—one learns that in half an hour—but there is a gentle and generous shading off. There is no oppression, and more enjoyment may be derived from a social life in Chicago than in any other city. It has a recognized head, it has its social laws, it has its very great and immediate necessity for being, and with this head it is like a kingdom or a church.

#### A TIDY WEDDING.

Mr. and Mrs. G. B. Dexter of Santa Monica celebrated their tin wedding on the 24th inst. at their home on Third street. The presents were numerous and novel. There was a large attendance of friends, the following from Los Angeles: Misses Jennie Henderson, Eva Johnston, Alice Fitch, Ella Corthorn; Messrs. Haskell, Blackinton and others.

#### SCOTCH AND PERSONALS.

Capt. and Mrs. True will be located in the Potomac Block this winter. Mrs. Charlotte Perkins Stetson goes to San Francisco to reside in October. Mrs. R. W. Poindexter of Adams street has returned from her summer outing.

Mrs. Eames of No. 1124 Olive street gave a pleasant little party last Thursday evening. Mrs. H. L. Bath has been the guest of her niece, Mrs. Lieut. Meyer, at San Pedro during the past week.

Rev. R. Logan of Santa Paula is a guest of friends in the city and will preach today at Immanuel Church.

Mrs. C. W. Kennedy of Albuquerque, N. M., who has been visiting Mrs. Geo. N. R., who is this city, returned home yesterday.

Mrs. E. Gorman and her daughter, Miss Lillie, leave Wednesday for the steamer Pomona for a six weeks' visit in San Francisco.

Mr. and Mrs. W. N. Shanklin (formerly Miss Jessie Barker) of San Francisco, will spend a week in Los Angeles next month.

Miss Anthony went to Pasadena yesterday to spend the Sabbath with Dr. Channing's family and Mrs. Charlotte Perkins Stetson.

Dr. Perkins Lumsden, accompanied by her mother, leaves for Santa Barbara Hot Springs next Wednesday for a two weeks' vacation.

give her a warm welcome when she returns.

Miss Mattie Switzer of San Diego, who has been the guest of Miss Hampton of No. 953 West Seventh street during the past week, has returned home.

Mrs. C. Ducommun leaves for San Francisco next Saturday to be absent a month. She will be accompanied by her daughter, whom she will place in school there.

Mrs. J. N. Nelson, Mrs. L. Belle Cross and daughter have returned from Westminster and Anaheim Landing where they have spent the last two months most delightfully among their friends.

Mrs. Swingley-Rider and Little daughter, Pauline, accompanied by Miss Marie Swingley, have returned from Long Beach and are now at Santa Monica domiciled in one of the Arcadia cottages.

This evening there will be a specially fine sacred concert at Simpson Auditorium which will appeal to all lovers of sacred music. The soloists will be Miss Mollie A. Paul and Miss Dorcas Hamilton, violin; Wilde, Dupuy and J. R. Logie.

Miss Carolyn Stevens of Pasadena leaves next Tuesday for a six weeks' visit East. Miss Stevens' cousins, Miss Dorcas of St. Paul and Miss Dorcas of San Bernardino are her guests at present at her Pasadena home on Madison avenue.

Mrs. E. T. Y. Parkhurst, corresponding secretary of the P. C. W. P. A., is going to Boston as a delegate to the State National Federation of Woman's Press Associations, which assemblies on November 15. Her private secretary, Miss Minna V. Lewis, will accompany her.

The reception social given by the ladies of the Church of the People in Campbell's Hall on last Friday evening was a grand success. The entertainment consisted of music, recitations, and the game of amateur artist. Ice-cream was served and everybody went away pleased with the entertainment. George and Fred Rice of Winchester, San Diego county, are in the city, guests of Mrs. E. C. Ransom. When mere lads these two brothers were adopted from the Los Angeles Orphans' Home by Mr. Rice, and have grown up to be intelligent boys, who spent yesterday in exploring the public buildings of the city with liveliest interest.

Mmes. W. C. Gardenhire and B. A. Frazier of Chattanooga, Tenn., are visiting in the city at the St. Elmo Hotel. The ladies were formerly the Misses Wiseman of Los Angeles. Mrs. Frazier will be remembered as Miss Annie Wiseman, a talented vocalist. She expressed much pleasure in her return to Los Angeles, "the ever-satisfying home of the heart." The practical world scoffs at the sentimentality and the weakness of the wife who stoops to lift her fallen husband from the dust and win him back to his lost manhood. But the noble army of earth's fanatics, who die for a poor cause, and the sentimentalists on the side of heaven, are proud to bid her welcome into their own ranks when she ignores the plain practicalities of common sense and with a divine joy seeks to save a lost soul. Try it, then, if he may have done everything that was cruel; he may have dealt with you in a measure as we all of us deal with God; he may have been ungrateful and false and wicked, but if ever you run across a husband like that, who is in trouble and in trouble treat him in a far-off similitude of the way God treats us. Save him if he can be saved, and look to a future that lies beyond this baffled, and struggling life for your reward.

#### MUSIC.

S. M. CLUB.

Even during the summer active work has been done by the music committees of this club, in preparation for the winter.

The first meeting will be held on the first Monday of October at the residence of J. J. Schallert, on West Eleventh street. Mr. and Mrs. Schallert are the committee for the month and their composers are Handel and Bach.

Miss M. L. O'Donoghue of New York will make her home here, with her mother, on West Fifteenth street. She has become one of the faculty of the Ludlum School of Oratory and Art, which is now in the third floor of the Y. M. C. building.

Mrs. J. D. Cole has moved into her rooms for the winter at 89 and 92 Potomac Block.

Mrs. M. A. Larrabee, who has been very ill for the last week, is improving slowly, at which her many friends will rejoice.

The St. Cecilia Club of women's voices will be reorganized in the course of a few weeks, under the same leader, Mrs. J. D. Cole.

The Treble Clef Club has been obliged to give up their intention of presenting the *Damnation of Faust*, owing to the impossibility of proper orchestration, notably that for a number of harps, when to substitute any other instrument would be to ruin the effect.

Cardinal Social Sins. (Music and Drama.) "Men don't admire— A selfish woman. A peevish woman. An ill-humored woman. A woman who talks disagreeably of other women. A woman who is continually falsifying. A woman who has not the tact to hide from him the fact that he's a bore. A woman who uses pins instead of needles and thread. A woman who shows him she knows more than he does on a certain topic. A sarcastic woman, unless the sarcasm is addressed to another man, and then he's pleased at her wit.

Profits of Blackberries. (Ontario Record.) An agent of the Southern Pacific Fruit Packing Company was here this week for the purpose of buying fruit. He offered to pay for blackberries at 4 cents per pound for five years. As high as six tons of blackberries were raised here this year on a single acre. It would seem that with an assured market for five years the growing of blackberries would prove quite profitable. Five tons of berries, the average product of an acre, would be worth, delivered at the station, \$400. The cost of cultivation, picking and packing would probably reach \$200 an acre. The six tons referred to above were grown on vines planted between orange trees.

Not the same. (Buffalo News.) Singleton, I'm sorry to hear that you have trouble with your wife. What's the matter? Benedict. It's her way of talking. She says the most cutting, ironical things to me on every occasion. Never misses a chance to spring something terribly sarcastic. It's dreadful, I tell you.

Singleton. Well, you know her long enough before you were married to learn of the trait. Benedict. Oh, I did; but I took it for wit!

Rough on Tramps. (The Epoch.) "There ain't agoin' to be good livin' in tramps' this season," said Ragles. "I'm afraid not," said Tatters. "These here cookin' schools is teachin' gals how to up the cold wittles." He knew what he wanted.

Fond Parent. I fear, young man, that you seek my daughter's hand solely for her wealth. Young Man. Well, look at her candidly and mention what other qualifications she possesses, will you?

In these days of easy divorces, when the marriage tie is held so loosely and the sacredness of the marriage relation is, by many, so utterly ignored, it is pleasant to run across sentiments like those embodied in the following, clipped from an exchange. If the sentiment of an community at large was controlled by such a spirit, there would be fewer divorces and not so many unhappy homes as now exist. The writer says:

"Among the vital questions that arise for a woman's solving, is there any paramount to the one? 'What shall I do in regard to the husband who has gone wrong?' Ignoring the vows she took upon herself at the altar 'for better or for worse,' is she to throw him over her shoulder and materialize and her happiness is gone? Take the case of a wife whose husband has deserted her. She cares for herself and her children, perhaps, for years, by dint of hard and long continued toil. She makes a home and wins a competence. At last one day she runs across the husband of her youth, sick, impoverished, friendless and suffering. What is her duty? To take him into the home and care for him, or to thrust him down still deeper into the dust and mire of self-interest? The enjoyment of the prosperity she has earned? Love is long ago dead; there remains of the old the scarcely so much as the perfume that lingers after a withered flower, and yet until the day she dies she never thinks of the first years of her wedded life without the filling of her eyes with hot tears that 'rise from the depths of some divine despair,' and crowds most thickly when 'thinking of the days that have been wasted. The practical world scoffs at the sentimentality and the weakness of the wife who stoops to lift her fallen husband from the dust and win him back to his lost manhood. But the noble army of earth's fanatics, who die for a poor cause, and the sentimentalists on the side of heaven, are proud to bid her welcome into their own ranks when she ignores the plain practicalities of common sense and with a divine joy seeks to save a lost soul. Try it, then, if he may have done everything that was cruel; he may have dealt with you in a measure as we all of us deal with God; he may have been ungrateful and false and wicked, but if ever you run across a husband like that, who is in trouble and in trouble treat him in a far-off similitude of the way God treats us. Save him if he can be saved, and look to a future that lies beyond this baffled, and struggling life for your reward."

This, I think, is the true spirit, and one which every true woman's heart will accept. Love dies very hard with woman, and the memory of it never fades. A poor soul like mine, I am sure, I do not know, but love is certainly a more absorbing sentiment with her, and the woman who loves worthily and feels that she is beloved in return can endure almost every sorrow and disappointment in life without yielding to despair. Earth knows no diviner thing, save the forgiving love of God, than the pure, self-sacrificing love of a noble woman.

Do not economize in the purchase of fruits this hot weather, but keep your table well supplied with the best to be found in market. Among the most wholesome of fruits is the peach, ripe, juicy and luscious. "But I'm afraid to let my children eat peaches," remarked a mother to some one the other day. "They have been suffering from bowel trouble for some weeks, and I have just been compelled to keep fruit from them, though they cry for it daily."

"I think that is mistaken caution on your part," I said. "I would advise you to let them eat peaches freely, only taking care that they are perfectly ripe and fresh."

I should be delighted to give them to them, I responded the mother, "and I will follow your advice."

That day the innocents were made happy. A bowl of delicious peaches was placed upon the table and the children received permission to help themselves. They ate and made much during the day, and the next day, and the next morning there was a marked improvement in their condition. In a few days their "summer complaint" had entirely disappeared and no further trouble in that direction has since been experienced.

Ripe fruit is wholesome, and it has often been remarked by old and experienced physicians that there is always sickness in years when fruit is abundant, so that it is within the means of all classes to use freely.

In warm countries it is almost impossible to overestimate the value of the lemon. It is very desirable for table use, and the juice is cooling to the blood, and lemonade is always a safer drink than is clear ice water. Many people use lemonade in hot weather for dainties and luncheon in preference to tea and coffee, and without doubt it is a more healthful drink than either.

For good lemonade allow the juice of half a lemon and one tablespoonful of granulated sugar to each half pint of water. Fill each glass half full of cracked ice and serve. It is wonderful how old lodgment in them. Every lady, young or old, should have it. It is wonderful protection to the skin from the ravages of the wind and weather. Price, \$1.00. All drug stores. Write to Gertrude Graham, "Beauty Doctor," at 103 Post St., San Francisco, for recipes for all blemishes or defects of the face or figure. Ladies at a distance treated by correspondence.

At the leading Los Angeles druggists sell it.

But we may all have smooth, soft skins and clear complexions, which are in themselves the first and most beautiful of adornments, and make us plainest face attractive. Mrs. Graham's Ointment and Kider Flower Cream causes the skin to become soft and velvety and the complexion is made clearer and whiter by its constant use.

It is not a cosmetic in any sense in which that term is ordinarily used, but a permanent beautifier, because it does not make up, but dyes the skin, thus preventing the formation of wrinkles, cleaning the pores thoroughly of their dirt, and making the skin soft and supple. use as flavor. A slice of lemon in a glass of iced tea is a great improvement. Put a slice of lemon, with one or more blocks of sugar in your teacup and pour the hot tea on it, and you have Russian tea. This is better than cream or milk and will not cause a headache or sleeplessness sometimes caused by the use of tea.

Then there is lemon water iced and lemon ice cream, so very refreshing in August. Beat well good when made at home because the real fruit is used, so exceedingly poor when store-made, because they put in the extract which tastes like turpentine. Lemon juice is used to advantage in mayonnaise instead of vinegar, and is indispensable with fish of various sorts. It is the only suitable flavoring for sponge-cakes, and what can you have nicer for desserts than lemon pies and custards, on those cool days that are usually scattered between the blazing ones.

Lemon Custard.—One large juicy lemon, five fresh eggs, three cups new milk, one tablespoonful of flour, a lump of butter the size of a seabird, one cup of sugar. Sift your flour in a bowl, add the yolks of the eggs, one at a time, beating between each one, then the butter, melted, then the grated rind and juice of the lemon. These are a nice accompaniment to the milk by degrees, stirring hard the while. Line two pie plates with puff paste, pour in the mixture and bake in a hot oven. Beat the whites to a very stiff froth with three tablespoonfuls of powdered sugar, spread over the tops of the custard when nearly done, and bake a pale brown.

An old-fashioned recipe for small cakes flavored with lemon is another of our favorites. It is called Savory biscuits. The weight of seven eggs is sifted flour, the weight of nine eggs in powdered sugar, the grated rind of two lemons and the juice of one. Beat the yolks of the nine eggs with the sugar, add the lemon, then the flour a little at a time, beating all the time. Lastly, stir in the whites beaten to a stiff froth, and bake in oval gem pans, well greased. Have the oven quick, but not hot enough to burn. These are a nice accompaniment to lemon water iced or jelly, and are a very good cake for children to eat, as they are not rich like cakes with butter in them.

#### SUSAN SUNSHINE.

A correspondent has kindly favored me with the following in response to the request in last week's TIMES for a good rule for making unfermented wine:

Dear Susan Sunshine: For unfermented wine wash the grapes. Set them over a slow fire, mash, as they heat, with hands or a spoon until soft. Strain them. Scald the juice. Set mason jars and tops in a tub with cold water over the fire. Put the boiling grape juice into the hot jars, a little at a time not to break the jars. Put the covers on hot. Tighten the covers next day.

This juice or wine keeps well until opened, but ferments within three days after opening. Needs no sugar. The best tonic and preventive of biliousness with some of my family. It has been used for church communion by those who do not take fermented wine.

Other fruit juices are nice prepared in the same way.

I think we do not half appreciate the beneficial effect of and the nourishment in fruit juices, in hot weather. They say that John Bidwell of Chico had broken from flour that twenty-four hours before was wheat standing in the field. I think that if I were one of Southern California's orchard owners I would have at every meal great jars of fruit that was yesterday drinking in the sunshine hanging from tree and vine.

Then would the future California boy know the mossy, rustic cider-mill, the barrel with open bung, the true and harmless use of the barley straw. Alas! he can never know how the green and scarlet leaves reflect in the mill-pond in October, or the flavor of the cider through the straw to the skaters in the winter evenings, when the fire of logs blazes high from some rock in the center of the pond. In the salad dressing receipt published a few weeks since "one teaspoonful of mustard, butter and sugar" should read one tablespoon.

Sincerely, SILENT.

A political paper asks whether any one can tell how the country will be any better off with wheat "cornered" or held from market by Kansas farmers than by Chicago or New York speculators. If this operation results in raising the price of wheat the answer is easy. It is much better that this higher price be distributed among thousands of industrious producers, thus enabling them to produce more, rather than among a few speculators. These thousands of Kansas farmers owe debts which the money from their wheat will enable them to pay. If they have any money left they will use it in purchasing articles from all parts of the country, thus making greater activity in all branches of productive industry.

We may not All be beauties. But we may all have smooth, soft skins and clear complexions, which are in themselves the first and most beautiful of adornments, and make us plainest face attractive. ## Housekeepers Should Remember.

The great success of the Royal Baking Powder is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care and skill, attained by twenty-five years' practical experience, are contributed toward this end, and no preparation can be made with a greater accuracy, precision and exactness. Every article used is absolutely pure. Chemists are employed to test the strength of each ingredient, so that its exact effect in combination with its co-ingredients is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials used, or the manufacture of the powder, who is not an expert in his particular branch of the business. As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome and uniform in quality. Each box is exactly like every other, and will retain its power, and produce the same and the highest leavening effect in any climate, at any time.

The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

## Best's Improved Gas Engine

Recognizing the fact that there is considerable demand for a good and reliable Gas Engine has prompted us to direct our attention that way, and realizing the great advantage of gas and gasoline as a safe, neat, inexpensive and powerful means of motion, we set to work studying the best means of harnessing this comparatively new source of power, and we have been so successful in actual tests that we feel no hesitancy in asserting that we are placing on the market an engine superior in every respect to anything in this line.

We have placed one in the Franklin Printing office, No. 205 New High street, where the engine can be seen working. Mr. George W. Crawford is our representative here. He can be seen at the above office or address him P. O. box 1809, Los Angeles.
